

PREMIUM FIBERGLASS DOORS

GENTEK[®]

GENTEK BUILDING PRODUCTS

MODERN COLLECTION

BUILT FOR YOU

Backed by decades of manufacturing expertise and innovation, our doors are expertly crafted to ensure world-class product performance. They are rigorously tested for structural integrity and thermal quality and consistently meet or exceed nationally recognized and accepted standards. Our doors are custom-made to the precise measurements of your door opening. This is a significant advantage over stock or "ready-made" doors which are adjusted to fit your home and may compromise the energy efficiency and/or appearance. Incorporating the perfect balance of elegance and strength, these doors will elevate the quality and comfort of your home while providing outstanding all-weather protection.

When it comes to choosing the best replacement doors for your home, you will want to give careful consideration to the door's component design and structure, which are key factors in achieving superior appearance and performance. Our doors feature frames, sills and proprietary components that provide exceptional strength and structural integrity as well as a neat, clean finished look.

You will also appreciate the simple upkeep. Our door's construction will not rot, split, corrode or pit like painted wood doors and will not swell or warp from exposure to moisture. Your doors will keep their beautiful appearance year after year with very little maintenance.

A LIFETIME OF PROTECTION

Our doors are backed by the manufacturer's lifetime limited, transferable warranty - further assurance of excellent value and peace of mind. Please consult your specialist for complete details.
