

BBB Accredited

Select businesses earn BBB Accreditation by undergoing a thorough evaluation and upholding the BBB Code of Business Practices.

CSA Approved

This label certifies that products carrying the label meet the operational and optional thermal performance required by the Canadian Standards Association and are subject to independent inspection to verify manufacturer's claims of operational performance and energy efficiency

Energy Star Qualification

ENERGY STAR qualified products must meet and exceed minimum Canadian federal energy efficiency standards according to a prescribed performance level for each product area.

Workers Compensation Coverage

The Workers Compensation Board (WCB) promotes workplace health and safety and provides a worker's compensation system for the employers and workers in Alberta.
